AVERAGE DAILY POPULATIONS

Statewide by County

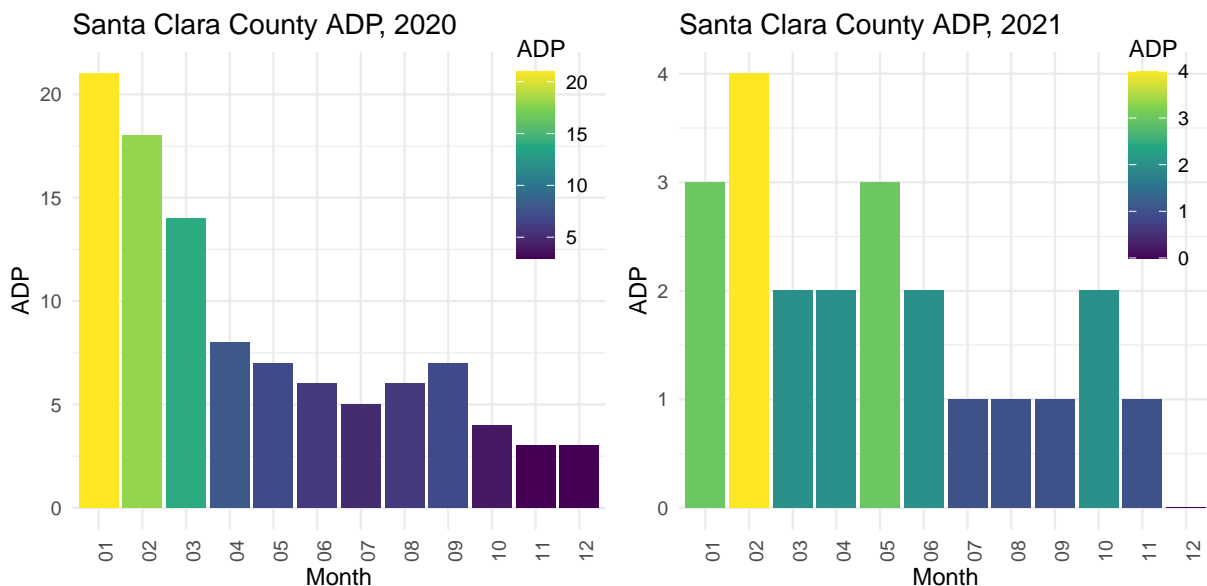

California's Board of State and Community Corrections (BSCC) reports Average Daily Populations (ADP) of juvenile facilities by county. In 2021, LA County's annual sum of monthly ADP counts was over twice that of Kern's, the second highest.

Annual Sum of Monthly ADP by CA County, 2021

Zooming in on Santa Clara County

In 2020, Santa Clara County's highest ADP (n=21) occurred in January, with a steady decline continuing throughout the COVID-19 pandemic. By 2021, even the county's highest ADP, occurring in February, had seen an **81%** decrease (n=3).

DETENTION PROFILES

The California Juvenile Court and Probation Statistical System (JCPSS) reports data on the proportion of cases within racial groups that result in types of detention decisions.
